DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. §§ 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR § 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-21, drawn to a wheat plant comprising at least one *Triticum aestivum* IMI nucleic acid having increased tolerance to an imidazolinone herbicide.

Group II, claim(s) 22-27, drawn to a wheat plant comprising the herbicide resistance characteristics of deposited plant PTA-4256 or PTA-4257.

Group II, claim(s) 28-43, drawn to a triticales plant comprising at least one *Triticum aestivum* IMI nucleic acid having increased tolerance to an imidazolinone herbicide.

Group IV, claim(s) 44, drawn to a triticales plant comprising the herbicide resistance characteristics of deposited plant PTA-4256 or PTA-4257.

Group V, claim(s) 45-49, drawn to an isolated IMI nucleic acid.

Group VI, claim(s) 50-54, drawn to a method of controlling weeds using a plant wherein the plant comprises at least one *Triticum aestivum* IMI nucleic acid having increased tolerance to an imidazolinone herbicide.

Group VII, claim(s) 55-57, drawn to a method of modifying a plant's tolerance to an imidazolinone herbicide comprising modifying the expression of at least one *Triticum aestivum* IMI nucleic acid.

2. The inventions listed as Groups I-VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The invention of Group I had been disclosed in the art at the time of Applicants invention (Shander *et al*, 1996 of record) thus the claim lack the same special technical feature.

Art Unit: 1638

3. Applicant is advised that the reply to this requirement to be complete within one month (not less than 30 days) must include an election of the invention to be examined even though the requirement be traversed (37 CFR § 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR § 1.48(b) and by the fee required under 37 CFR § 1.17(i).
